- work from here
- collaborative technology

# Task2

## Main Points

### Hybrid working

1. It can be done from anywhere.
2. Many people think of that as a decisive factor in job hunting.
3. 85 British employees think the approach is good.

# Task3

## What is Hybrid Learning

It is a combination of the time you spend at home as usual as the time you take classes remotely. (20)

# Task4

## Redesigning work spaces

With such a seismic shift in workplace behavior decision makers are considering redesigning workspaces. Into culture spaces which stimulate improvised collaboration, and morale raising social moments with colleagues for employers. It also makes financial sense: lower office rents; fewer overheads; and a chance to attract diverse applicants; are just a few benefits of the hybrid model. (56)

# Task5

## Office Study

The research shows that 86 office workers wanted to work from home at least two days a week in 2022, and the sense of alienation felt by employees and the lack of collaboration technology for remote work still remains. (39)
